

## Rams Hill Modified Overflow Parking Area Map

Effective May 1, 2019, homeowners may not use the Rams Hill Golf Club property to park their vehicles overnight. Permitted vehicles— cars, vans, and low-profile trailers—must park in the overflow parking area located on Rams Hill Drive near the water tower, where they are subject to the RHCA Overflow Parking Lot Rules and Regulations. This change also applies to any standard vehicles whose neighborhoods do not offer overflow parking areas or do not allow overnight driveway parking. Motorhomes, travel trailers, and enclosed toy/car haul trailers are not allowed at Rams Hill and must find accommodations outside of the community. For any questions or further clarification, call the HOA office at 760-767-1158.
